ACNE ADVANCED TREATMENT SYSTEM

Treats Advanced Acne in 28 Days*

The Acne Advanced Treatment System features at-home and in-spa products that utilize encapsulated salicylic acid and botanical actives to deliver a proven organic solution for those looking to treat and prevent acne.

"Day after day, I continue to see improvements and feel so much more confident when I look in the mirror. My breakouts are gone and my scars look lighter!"

– Vanessa T.

"For the first time in eleven years, I have unblemished skin."

– Christina B.

*In vivo clinical study results, based on application of the complete system for 28 days.

FIND YOUR SKIN TYPE

To identify your personal skin type before choosing the right product for you, read the following options and then refer to the product chart at the back of this catalog.

☉ DRY SKIN

Your skin feels dry and tight, and sometimes you can see flakes on your cheeks, chin and forehead. Fine lines may be present around your eye and lip contour areas. It is important to use moisture-rich products. Weekly moisturizing masques will keep your skin soft and supple and will reduce fine lines and wrinkles.

◯ NORMAL

🕯 COMBINATION SKIN

Your skin has an even tone, and is not overly dry or oily. From time to time you may experience oiliness on your chin, nose and forehead or dryness on your cheeks, lips and around your eye contour area. To keep the condition of your skin even and toned, a good skin care routine including cleansing and moisturizing is a must.

💧 OILY SKIN

Your skin is shiny, has visible pores and is prone to spots and blemishes. It is essential to recognize that oily skin can also be sensitive, so it is important to avoid harsh products which claim to dry out the oiliness. Oily skin has the benefit of not showing lines easily, however it needs to be maintained to prevent break-outs and to control shine.

🌿 SENSITIVE SKIN

Your skin is delicate with fine pores, is often irritated and is prone to redness. Sensitive skin is often genetic and can also react to poor diet, changes in weather, hormonal imbalance and certain cosmetic products. Sensitive skin must be treated with gentle and soothing products to heal and relieve symptoms.

ÉMINENCE

A FEW WORDS ABOUT SKIN CONDITIONS

Skin conditions can be uncomfortable both physically and emotionally. Products that contain active herbal ingredients can be highly effective at treating skin conditions and show amazing results. If you are unsure if you have a skin condition, please consult your esthetician.

ACNE

Both adolescents and adults can have oily to normal skin that persistently breaks out and is sometimes inflamed, clogged and reactive. Acne can be caused by a number of factors including: the overproduction of sebum (an oil naturally produced by the skin), dirt and pollution on the skin's surface, clogged pores, stress and diet. Acne can be treated by following a healthy diet, controlling stress, regular exercise to remove toxins from the body and by following a consistent professional and at-home skin care routine.

ROSACEA

Sometimes confused with acne, rosacea often shows on the skin as inflammation and reddening on the nose, forehead, cheekbone or chin areas. Inflamed capillaries on the skin's surface give the complexion a red, blotchy or bumpy appearance. Rosacea is usually a genetic condition, but certain factors are known to aggravate it. Avoiding hot liquids, alcohol, spicy foods and extreme temperatures will help calm and clear irritation.

HYPERPIGMENTATION

Defined by the appearance of dark spots, freckles, scarring or an uneven skin tone, hyperpigmentation can affect any skin type and has a large spectrum of severity. Identified by an increase in melanin production in the skin, it is a universal skin condition. Environmental factors, stress, aging and post-inflammatory pigmentation are all factors in skin tone changes. Protect from future damage with SPF and seek products and treatments specifically designed to fade dark spots and hyperpigmentation.

TIPS FOR ALL SKIN TYPES

Cleansing, toning, and moisturizing are the basics of skin care. But are you missing something? Discover three simple steps that are often overlooked.

Why exfoliate?

Exfoliation is the key to vibrant skin. Regular exfoliation removes the hard keratin layer and build-up, bringing luminosity and clarity to the skin. For younger skin, exfoliation unplugs pores and keeps the skin clear and smooth. For mature skin, exfoliation is essential to help minimize fine lines, remove dry flakes, and to revive tired skin. To find the most effective treatments for your skin, refer to the product chart at the back of this catalog.

Why use masques?

Using a face masque once or twice per week will dramatically increase the elasticity and health of the skin. Éminence masques contain high amounts of concentrated vitamins and nutrient-rich ingredients which give additional hydration and firming benefits. Treatment masques can be used to control skin conditions. To find the most effective masques for your skin type or condition, refer to the product chart at the back of this catalog.

Why use serums, booster-serums, concentrates and oils?

Serums, booster-serums, concentrates and oils infuse the skin with pure vitamins and herbs. They are typically applied as the last step before moisturizing your skin. However, booster-serums are a versatile product that can be used in numerous ways – they can also be added to moisturizers and masques for enhanced results. Each one ensures deep penetration of active ingredients into the skin to impart a healthy glow from within. To find the most effective serums, booster-serums, concentrates and oils for your skin type or condition, refer to the product chart at the back of this catalog.

SKIN CARE ROUTINE

STEP 1– CLEANSE

(twice per day, morning and evening)

Select a cleanser suited to your skin type. Place a small amount of cleanser into your hands and emulsify with lukewarm water. Apply to the face in a circular motion, covering the entire face for 30 seconds. Remove from the skin while gently scrubbing with a damp face cloth or sponge and rinse thoroughly, alternating with warm and cold water. This action will remove dirt, pollution and impurities from the skin's surface and prepare it for the next step.

STEP 2 – TONE

(twice per day, morning and evening)

Apply one to two sprays of toner, suited to your skin type, over the entire face and leave on. Toners are important to balance the natural pH of the skin and to infuse the skin with natural vitamins and minerals. Feel rejuvenated with each spray.

STEP 3 – EXFOLIATE

(once or twice per week)

It is important to exfoliate the skin at least once or twice per week to help remove dead skin cells and dirt that can dull your complexion. To exfoliate, first cleanse the skin as in Step 1, then apply the exfoliant suited to your skin type and allow to dry for 5–10 minutes. Use a face cloth moistened with lukewarm water to gently scrub off using a circular motion. Rinse thoroughly with water and proceed to Step 4.

STEP 4 – MASQUE

(once or twice per week)

Find a masque suited to your skin type or to the condition that you are treating. Emulsify a small amount of the masque in your hand with a few drops of water and apply evenly over the entire face and neck areas as well as the décolleté, if desired. Allow the masque to dry for 5–10 minutes. Use a face cloth or sponge moistened with lukewarm water to gently scrub off the masque using a circular motion. Rinse thoroughly with water and proceed to Step 5.

STEP 5 – TREAT

(daily or as required)

Treat specific skin care concerns, such as lack of firmness, acne or rosacea, with a targeted treatment, serum, booster-serum, concentrate or oil. Use a combination of treatments to enhance your skin care routine and get dramatic results.

STEP 6 – MOISTURIZE

(twice per day, morning and evening)

Hydrate and soften the skin with a moisturizer suited to your skin type. Even oily skin needs a light moisturizer to keep skin soft and supple. Apply a layer of moisturizer over the entire face and neck area and leave on. For a lighter application, emulsify a small amount of moisturizer in your hand with a few drops of water. For extra hydration, apply a thicker layer in dry areas.

STEP 7 – EYE CARE

(twice per day, morning and evening)

Using a gentle tapping motion, apply a small amount of eye cream to the contour area around the eyes, taking care with the delicate skin around the eye area.

STEP 8 – PROTECT

(daily or as required)

Apply Sun Defense Minerals as per instructions to finish and protect the skin.

STEP 9 – BODY CARE

(daily or as required)

Apply a layer of the sugar scrub to damp skin. Massage in a circular motion on legs, hands, arms, elbows and any part of the body that needs smoothing. Rinse well with warm water and pat dry. Follow with a body lotion according to skin type, massage into the skin and leave on.

C L E A N S E R S

The Éminence range of cleansers contains specific combinations of natural, organic and Biodynamic® ingredients to deliver results to all different skin types.

Emulsify a small amount of cleanser with water and apply to the face area. To enhance the cleansing effect, use a wet face cloth or brush to massage. Rinse off with water. Afterwards the skin feels balanced and looks radiantly refreshed.

ACNE ADVANCED TREATMENT SYSTEM

1 Cleanse 2 Treat 3 Hydrate

The Acne Advanced Treatment System features products that utilize encapsulated salicylic acid and botanical actives to deliver a proven natural solution for those looking to treat and prevent acne.

STEP 1—CLEANSE

Acne Advanced Cleansing Foam

— *unique liquid-to-foam cleanser* —

This unique liquid-to-foam cleanser provides lightweight acne cleansing action, effectively preventing acne breakouts and clearing blocked pores. This cleanser features time-release encapsulated salicylic acid combined with a natural antiseptic herb blend to address uneven skin. — 150 ml/5 oz pump —

STEP 2—TREAT

Acne Advanced Clarifying Masque

— *2-in-1 masque and spot treatment* —

This unique clay masque utilizes potent anti-acne ingredients to treat active acne and prevent future breakouts. Three types of purifying clay combine to absorb excess oil, reduce shine and deep-clean pores to clear up acne symptoms. Use this masque to treat the entire face or as a spot treatment to restore clarity to your complexion. — 60 ml/2 oz tube —

STEP 3—HYDRATE

Acne Advanced Clarifying Hydrator

— *ultra-lightweight mattifying lotion* —

This hydrating lotion reduces the appearance of oily skin, resulting in a soft, matte finish. Powerful lotus extract works to instantly absorb excess oil and diminish shine, while time-release encapsulated salicylic acid reduces blemishes and breakouts. In addition, zinc hyaluronate and arbutin help to reduce the appearance of redness and scarring. — 35 ml/1.2 oz glass pump bottle —

Acne Advanced Treatment System

— *3-step system to treat and prevent acne* —

The Acne Advanced Treatment System bundle features full-sized versions of the Cleansing Foam, Clarifying Masque and Clarifying Hydrator. For best results, use these three steps together consistently to treat and prevent acne.

When purchased as a bundle, this 3-step system offers a 20% saving over purchasing the products individually.

ARCTIC BERRY PEEL & PEPTIDE ILLUMINATING SYSTEM

Keep the skin radiant in between spa treatments with this 3-step system to target aging, hyperpigmentation, as well as sensitive, rosacea and acne prone skin. Featured in this collection, an exquisite blend of arctic berries, lingonberry seed oil and hibiscus seed extract protect with antioxidants and calm with anti-inflammatory properties. Discover smooth, even and luminous skin.

STEP 1—EXFOLIATE

Arctic Berry Enzyme Exfoliant

— enzymatic and manual exfoliator for all skin types —

Experience the ultimate renewal from the powerful combination of enzymatic and manual exfoliation. Naturally-derived papain enzyme breaks down and removes dead cells on the skin's surface while finely ground wild cherry bark gently exfoliates to refine the skin's texture. Discover a smoother skin tone and a more luminous and even appearance. — 30 ml/1 fl oz tube —

STEP 2—ACTIVATE

Arctic Berry Advanced Peel Activator MA¹⁰

— multi-acid 10% peel activator for all skin types —

This self-neutralizing MA¹⁰ (multi-acid 10%) peel gently removes layers of the skin naturally to initiate clearer, smoother and more luminous skin. Reduce hyperpigmentation and inflammation, fine lines and wrinkles and enjoy improved elasticity and skin tone. Bright, glowing skin comes from ActiWhite™, to lighten the appearance of the skin. — 30 ml/1 fl oz dropper bottle —

STEP 3—ILLUMINATE

Arctic Berry Peptide Radiance Cream

Clinically proven to improve fine lines by 40%!

— soothing peptide cream for all skin types —

Transform the appearance of your skin with this all-powerful daily moisturizer that features our exclusive Peptide Illuminating Complex. Reveal your radiance naturally and discover smooth, even and luminous skin. — 30 ml/1 fl oz tube; also available in 60 ml/2 fl oz jar —

P R O D U C T C H A R T

Discovering the best and most effective skin care products for your skin is easy with our product scales. Each product category appears on a scale from left to right, lightest, lightest, for oily skin, to richest, for dry skin. Simply look for your skin type, the skin concern you'd like to address, such as anti-aging or acne and your preferred richness in formula. Plus, you'll even find our exfoliants graded according to intensity and moisturizers categorized by the type of finish, from matte to dewy.

Application: Apply a small amount of product to skin and massage gently with fingertips for 1–3 minutes, diluting with water if required. Rinse off with water or remove with a damp face cloth.

EXPERIENCE AWARD-WINNING ORGANIC SKIN CARE WITH RESULTS

It is important to take care of the skin with pure, natural ingredients and by choosing Éminence you have found organic skin care that offers incredible results. As you've seen throughout this catalog, we have an extensive array of products to choose from to treat every skin concern and help you discover the products that work best for you.

Our natural, organic and Biodynamic® ingredients may have slight variations from harvest to harvest. Like an heirloom tomato may be red, yellow or orange, our final products may have minor differences also. These slight variations do not affect the efficacy of the product.
